

How to use Creativit ?

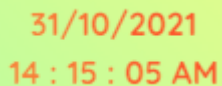

Welcome to our guide ! Here, you'll can learn anything about Creativit !

So let's get started !

First, you can click the following text to redirect you to the landing page (<https://creativit.netlify.app>) :

The logo for Creativit, featuring the word "Creativit" in a purple, rounded font on a light green rectangular background.

Secondly, you have the time and the date of the day in real time !

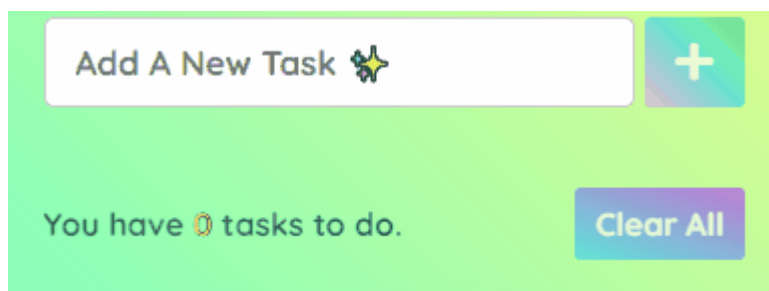

A light green rectangular box containing the date "31/10/2021" and the time "14 : 15 : 05 AM" in orange text.

Thirdly, you have the total visitors of the website (the number isn't complete because the feature was added long after the site was launched).

Here's a preview

The text "Total Visitors" in a blue font on a light green background.A digital counter showing the number "00000094" in black digits on a light green background.

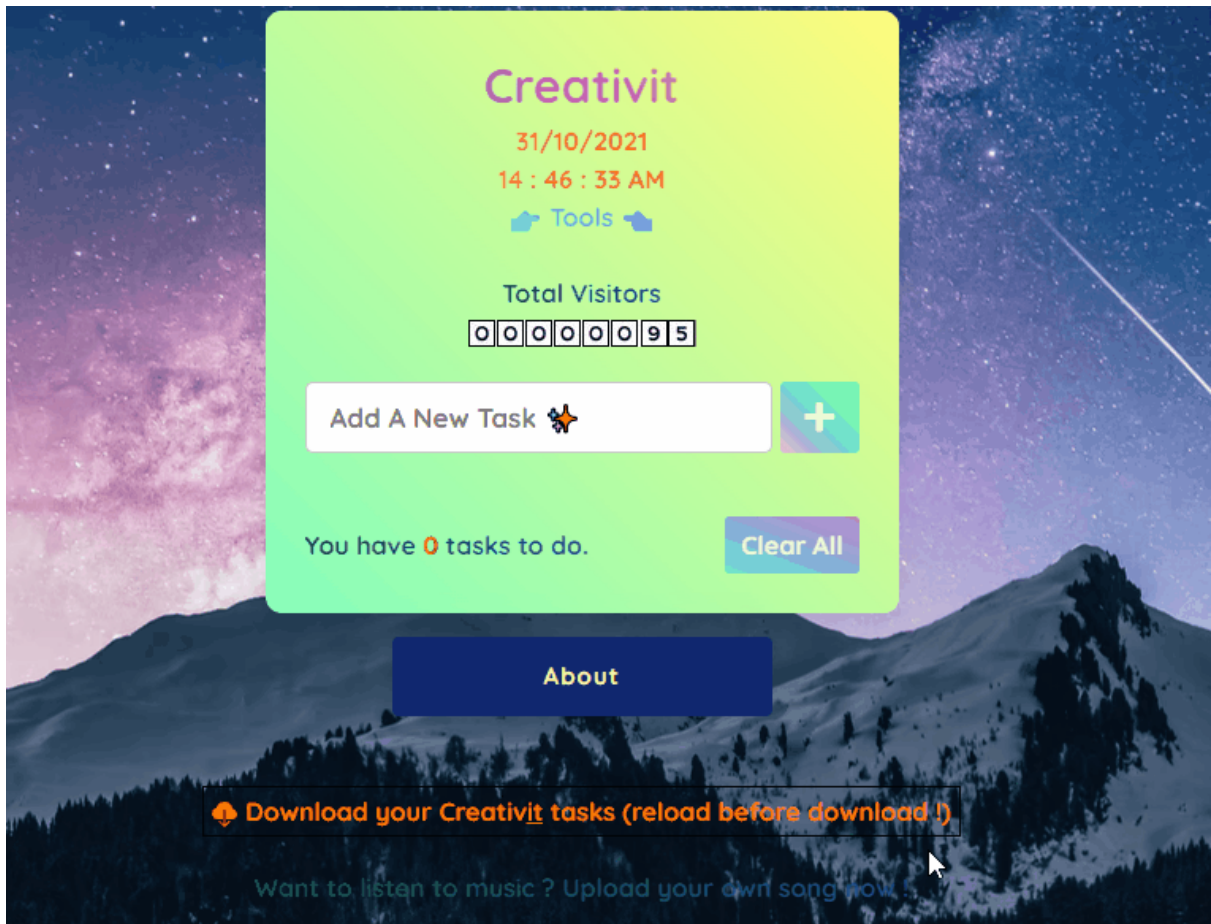

Fourthly, you have the principle feature of the app which is the to-do list of course, here's a preview to show how we add tasks and how we delete it !

Fifthly, you have the number of task which you have to do : Basically, when you add a task, the number of tasks will be increased by one... (The preview is above)

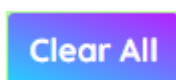

Now, let me introduce a very new feature, which is download your task (**don't forget to reload the Creativit page to download it/them**).

Here's a preview

In Creativit, you can clear all your tasks in one click !

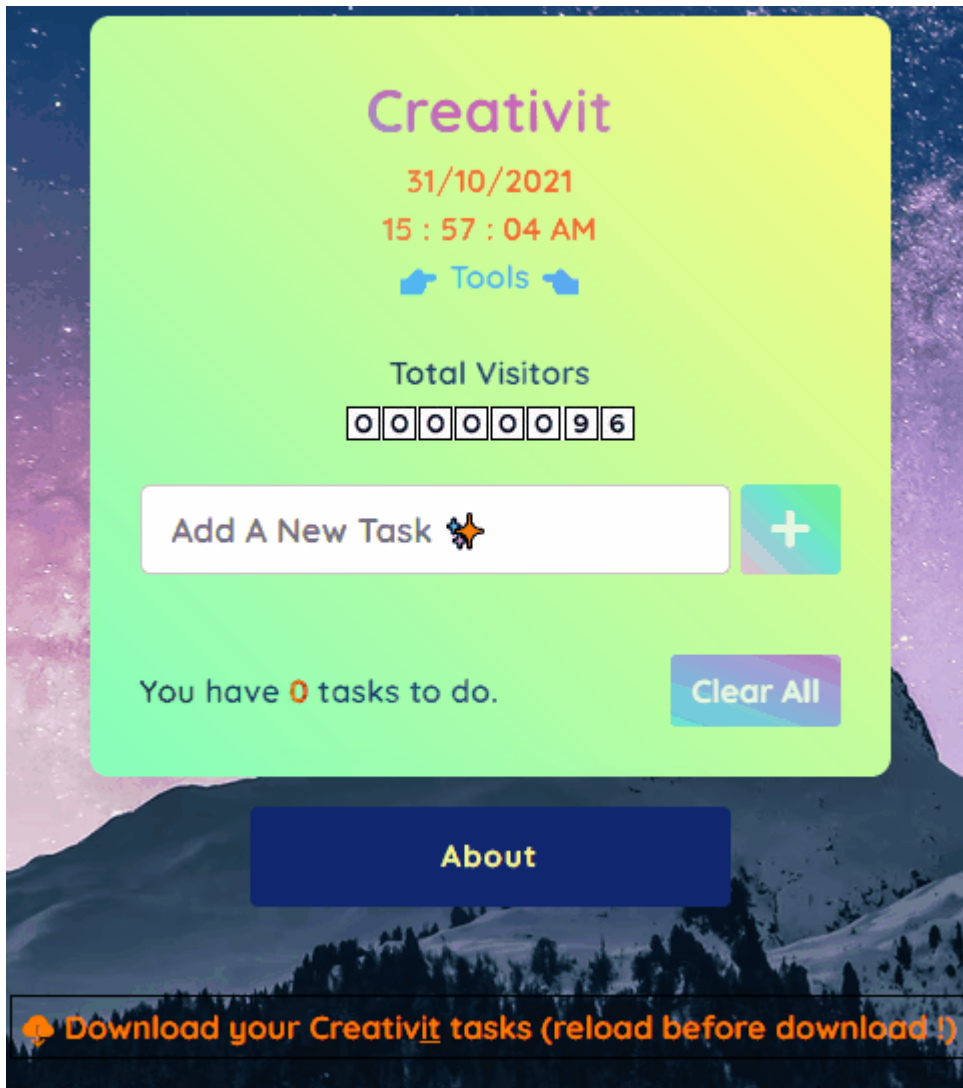

This is the clear all button. Here's the image :

And now here's the image when there isn't any task :

Here's a preview of the
feature !

Now, here's the amazing last feature : you can upload your own song and listen to it directly on Creativit !

As always, here's
a preview

About

📄 Download your Creativit tasks (reload before download !)

Want to listen to music ? Upload your own song now !
